

SOCIAL CONCERNS NETWORK OF SW WISCONSIN ASSOCIATION

The Social Concerns Committee is asking each clergy person in the Association to assist in the development of a Social Concerns Communication Network. After considering many issues and approaches, we have agreed that our main task is that of communication and support for those throughout the Association who wish to become actively involved in social concerns.

We would like to be able to inform key persons in every congregation and affiliate ministries of opportunities and resources that come to our attention regarding such issues as economic justice, restraint of violence, family values, medical ethics, racism, human rights and ecological stewardship, etc.

To do this effectively, we need your help: First, register yourself as a member of the Network. Second, talk to and identify one or two lay members of your congregation who would be most strongly assertive in such matters. Third, with their permission, add them to the social Concerns Communication Network registry.

We ask that you identify only those persons who have an e-mail address. Our proposed Network will make extensive use of electronic communications. Our network will be most effective if it can include compassionate men and women who are bold to express a prophetic dimension in the fulfillment of their Christian faith. To register, fill out the attached form and return it to the Association Office.
